

I. Introduction

This Privacy Policy (hereinafter referred to as " this Policy ") applies to Shenzhen Siheng Education Technology Co., Ltd. (hereinafter referred to as " we ") and all legally operated client applications, official websites, and software development kits (SDKs) and application programming interfaces (APIs) used by third-party websites and applications. Applicable devices include but are not limited to mobile phones, tablets, PCs , wearable devices, and new types of terminals that may appear in the future.

Because we offer a wide range of products and services, the scope of personal information collected and used may vary depending on the specific features you use. We may develop separate privacy policies or guidelines for specific features (such as policies for protecting minors and content creation guidelines). If such policies conflict with this Policy, the specific privacy policy shall prevail.

" personal information " and " sensitive personal information " involved in this policy shall comply with the "Personal Information Protection Law of the People's Republic of China", "Law of the People's Republic of China on the Protection of Minors", "Cybersecurity Law of the People's Republic of China" and other relevant laws and regulations.

" minimum necessary " basis in relevant scenarios . We will only process that information when you use specific features.

II. About Us

This App is provided and operated by Shenzhen Siheng Education Technology Co., Ltd., which was established on May 7 , 2025 and has a registered address of 1203F7, 12th Floor, Tairan Cangsong Building, No. 25 , Tairan 7th Road, Tian'an Community, Shatou Street, Futian District, Shenzhen .

Affiliates are companies or organizations that currently or in the future control or are controlled by us, or are under common control with us. We may share necessary information with our affiliates, but will strictly comply with laws, regulations, and this Policy.

If you need to know more about our company's basic situation, you can contact us through the contact information at the end of this policy.

III. How we collect and use your personal information

1. Collection Principles

We collect personal information based on the principles of legality, legitimacy, and necessity. If we need to use your personal information beyond the purposes outlined in this policy, we will obtain your explicit consent again.

2. Collection and Use Scenarios

We collect and use personal information you provide voluntarily during the use of our products / services or generated as a result of product / service requirements in accordance with laws and regulations and the principles of legitimacy, legality, and necessity. If we intend to use your personal information for other purposes not specified in this Privacy Policy, or use information collected for a specific purpose other than for a specific purpose, we will promptly and reasonably notify you and obtain your consent again before use.

We collect and use two types of your personal information: First, personal information necessary for the basic business functions of our products / services. This type of personal information is essential for the normal operation of our products / services, and you must authorize us to collect it. If you refuse to provide this information, you will not be able to use our products / services properly. Second, personal information that may be collected for extended business functions. This type of personal information is not required for basic business functions, and you can choose whether to authorize us to collect it. If you refuse to provide this information, the extended business functions may not be implemented or may not achieve the desired results, but your normal use of the basic business functions will not be affected.

3. Account Services

(1) When you register / log in to your account, you will need to provide us with your mobile phone number (sensitive personal information) in order to help you complete the registration/login process smoothly . We collect your mobile phone number to meet the online real-name registration requirements stipulated by relevant laws. If you refuse to provide your mobile phone number for verification, your registration/login will fail and we will not be able to provide you with the core functions of our products / services.

(2) When you use the " One-click Login " function, with your consent, the operator will provide us with the mobile phone number of your current device (sensitive personal information) so that we can use it as your registration / login account and provide you with quick registration / login services without the need for password or dynamic verification code verification.

(3) If you authorize login using a third-party platform account (WeChat, Weibo, QQ account), you authorize us to obtain relevant information (including user ID , nickname, profile picture) and authentication information (sensitive personal information) under the third-party account for account binding, account information improvement, account security

protection, and security risk prevention. If you refuse to authorize the aforementioned information, you will be unable to log in using the third-party platform account, but you can complete registration / login through other methods.

(4) You can choose gender, date of birth, region, nickname, profile picture, signature, and school to complete your personal information. Failure to fill in will affect your ability to use our products / services. Some of the aforementioned information will be publicly displayed on your personal homepage.

(5) When you apply for official certification, depending on the type of certification you choose, we will need to collect and verify some or all of the following personal information: account information (nickname, profile picture, introduction), identity information (name, ID number and photo, facial recognition features, mobile phone number), qualification information (off-site account information, professional qualification information), operator information (name, mobile phone number, authorization certificate, contact email address, city). The certification logo and certification information will be publicly displayed in your account. Your refusal to provide the aforementioned information will only result in your inability to use the aforementioned functions, but will not affect your use of other products / services we provide.

2. Content and interaction

(1) When you answer questions, post comments, post, take pictures, or video, we will collect the content you provide. When you shoot or post videos or pictures, or broadcast, we will apply for access to your storage / album, camera, and microphone permissions based on the type of function you use, and collect the video, image, and text information you provide. When you use the campus function, we will collect the school information you provide and your rough location information to show you content information posted by other users from the same school or school in the same city (hereinafter referred to as "alumni").

(2) Your interactions with others (likes, comments, private messages, favorites, etc.) will also be recorded for normal functionality and security risk control. We will conduct compliance reviews of information posted by users to prevent the spread of illegal and unauthorized content.

3. Learning and recommendation services

(1) We will record your answer records, learning progress, and search behavior to generate learning reports and personalized recommendations. To ensure that you can access the data in the learning report at any time to assist in learning, the learning report will be saved.

(2) We will collect information such as device model, operating system version, device identifier, IP address, network environment, etc. to ensure service security and prevent cheating.

4. Transactions and Payments

(1) To help you complete transactions, ensure transaction security, provide order inquiries, customer service and after-sales service, we need to collect some or all of the following order information depending on the type of product: order time, order number, order status, product information of the transaction, payment information (payment amount, payment method, payment serial number, payment status, payment account of the third-party payment channel, sensitive personal information), delivery address information (recipient's name, delivery address, contact number, sensitive personal

information), virtual product consumption and use records, membership activation time, joint membership account information (mobile phone number, sensitive personal information). In order to meet the real-name system requirements of relevant laws and regulations and regulatory authorities, when you purchase some products (cross-border products, tickets, digital peripherals), we also need to collect your personal identity information (depending on the specific product type and relevant regulatory requirements, we may need to collect some or all of the following information: name, ID card type and number, facial recognition features, sensitive personal information). To this end, in order to protect the security of your account and funds, the safe and stable operation of payment services, and fulfill legal obligations such as anti-telecom fraud, we will also collect your necessary device information (IP address) for risk control and provide it to the third-party payment channel you choose to complete the payment process.

(2) After you successfully place an order, if the product is provided by a third party or requires third-party delivery, in order to smoothly, safely and accurately complete the delivery and delivery of the product to you, the corresponding third party will inevitably collect and use your delivery address information (recipient's name, delivery address, contact number, sensitive personal information) during the shipping and delivery process.

(3) When you perform after-sales service (such as repair, return or exchange), if the after-sales service needs to be completed by a third party (such as the product is provided, picked up, delivered or repaired by a third party), in order to resolve your after-sales needs as soon as possible, the corresponding third party will inevitably collect and use your after-sales information, including: product information, shipping information (sender's name, shipping address, contact number, door-to-door time, sensitive personal information), delivery address information (recipient's name, delivery address, contact number, sensitive personal information), order information, and other necessary information related to after-sales needs.

(4) To provide you with after-sales and dispute resolution services, we need to promptly learn and confirm the progress and status of delivery and after-sales. You agree that we may collect information related to delivery and after-sales progress from relevant third parties. We promise to you that we will make every effort to protect the security of your personal information and strictly require third parties to keep your personal information confidential. They will only learn about and use your personal information for delivery and after-sales purposes and shall not disclose it to any third party or use it for any other purpose.

(5) When you use the withdrawal function, we need to collect your account real-name authentication information (real name, sensitive personal information), third-party payment channel payment account information (sensitive personal information), bank card information (sensitive personal information), and bank-reserved mobile phone number (sensitive personal information) to complete identity verification, account binding, and fund settlement. Your refusal to authorize the aforementioned information will only result in your inability to use the aforementioned function, but will not affect your use of other products / services provided by us.

(6) Your refusal to authorize the aforementioned information will only result in your inability to use the aforementioned functions or services, but will not affect your use of other products / services we provide .

5. Personalized recommendations

(1) Based on the information collected, we will analyze and extract your characteristics (preferences, habits, location) and form an indirect user profile in order to provide you with more personalized content, advertising, and services. To this end, we need to collect and use your following personal information: account information (account, registration information), basic personal information (age, gender, predicted age group, of which gender and predicted gender are sensitive personal information), location information (GPS precise location information, rough location information, the region information you filled in, of which GPS precise location information is sensitive personal information), device information (device model, operating system type and version, application version, application list, device unique identification information OAID , IP address, browser type), log information (startup / update / initialization / browsing / clicking / questioning behavior records, behavior time, visited pages / products, which may vary depending on different behavior types), published content information (title, introduction, release time, number of views, etc.), interactive information (interaction records, interactive content) and other information collected with your authorization or provided by other partners.

(2) You can also manage the unique device identifier (OAID) through the methods provided by the terminal device . The setting methods for different terminal devices and their versions are different, so please refer to your actual situation. For example, some mobile phones can be set through (Settings - Privacy - Tracking Management).

When you turn off the tracking permission for your device unique identifier (OAID) , we will not process your personal information for the purpose of personalized recommendations, but will only push non-personalized, general content, advertisements or services to you.

6. Customer Service

When you contact us or initiate customer service requests (such as feedback / suggestions, complaints, appeals, consultations, and dispute mediation) with us, for the security of your account and system, we need you to provide the necessary account information first and match it with your previous personal information to verify your user identity. At the same time, in order to facilitate contact with you, resolve customer service requests as quickly as possible, and record the solutions and results of related requests, we also need to collect and use your contact information (mobile phone number, email address or other contact information you provide, sensitive personal information), city / region information, your communication information with us (including text / pictures / audio/video / call records), information you provide to prove relevant facts, and other necessary information related to customer service requests. If you initiate customer service requests for a specific order, we will also use your order information. Your refusal

to authorize us to collect and use the aforementioned information will only result in your inability to use the aforementioned functions, but will not affect your use of other products / services we provide.

To comply with relevant laws and regulations, fulfill our obligations regarding the ecological governance of online information content, and prohibit the publication and dissemination of illegal and harmful information, we will review your posted content through both machine and manual means. We will only review your posted content for the aforementioned purposes and will not perform any other processing.

7 . Security

1. We are committed to providing you with a secure and reliable product and user environment, and offering high-quality and reliable services and information. To maintain the normal and stable operation of this App and protect the safety and legitimate interests of you, other users, or the public, we collect (including in the background) your device information (device unique identifier, IP address, device brand, device model, operating system type and version, application version, Wi-Fi list information, Bluetooth adapter information, running process information, application list, device system and configuration information), WLAN access point (such as SSID , BSSID), log information (log information of startup / update / initialization / browsing / click / play / question / exam activities, time of activities, pages / products visited , which may vary depending on the type of activity). We also use or integrate your account information and information provided to us by our partners with your authorization or in accordance with the law to conduct risk control in scenarios such as login, interaction, and payment (including but not limited to identifying abnormal login behavior and assessing the security of the login environment). We use this information to comprehensively assess your account risk, ensure the security and normal use of your account, conduct identity verification, detect and prevent security incidents, and prevent malicious programs. We also take necessary recording, auditing, analysis, and disposal measures in accordance with the law.

2. After de-identification or anonymization, we may use the above information for research, testing, analysis, and prediction, to improve the content and layout of this App , to test the effectiveness of third-party products / services, to provide product / service support for business decisions , and to improve our products / services (including using anonymous data for machine learning and model algorithm training).

8. Message Notification

1. When you use products, practice tests, or access exam appointment reminders, we will collect your account ID and appointment history. We will use your device's system notifications to send you notifications about your account status, users / tests / content / question reminders you follow, trending content, and recommended content. You can choose to disable our notifications on your device or select the information you wish to receive or reject in [Profile] - [Settings] - [Push Settings] / [Message Settings].

2. During operations, we may use the contact information (mobile phone number, email address, QQ , WeChat, and sensitive personal information) you provide during the

use of our products / services to send you one or more types of notifications for purposes such as user notifications, identity verification, security verification, and user experience research. We may also provide you with commercial information about services, features, events, and other services that may be of interest to you. If you do not wish to receive the aforementioned information, you may unsubscribe using the unsubscribe method provided in the text message or email, or by contacting us.

IV. How do we use cookies and similar technologies?

1. When you use our products / services, we may use cookies and similar technologies to collect some of your personal information, including: your website visiting habits, your browsing information, and your login information. Cookies and similar technologies collect this information to ensure that you use our products / services, simplify the steps of repetitive operations (such as registration and login), facilitate your review of usage history (such as video viewing history), provide you with services that better suit your personal needs and content that may be of greater interest to you, protect the security of your information and account, and improve our products / services.

2. If you refuse us to use cookies and similar technologies to collect and use your relevant information, you can manage and (partially / completely) refuse cookies and / or similar technologies through your browser settings, provided that your browser has this function; or delete cookies and / or similar technologies that have been stored on your computer, mobile device or other device , so that we cannot track your personal information in whole or in part. If you need to know more about how to change your browser settings, please refer to the relevant settings page of the browser you are using. You understand and know that some of our products / services can only be achieved through the use of cookies or similar technologies. If you refuse to use or delete them, you may not be able to use our related products / services normally or obtain the best service experience through our products / services, and it may also have a certain impact on the protection of your information and the security of your account.

V. How we share, transfer and publicly disclose your personal information

1. Collaboration

When we cooperate with partners (including our affiliated companies and external third parties, hereinafter the same), we will abide by the principles of " legality, legitimacy, minimum necessity and clear purpose " .

If we entrust a partner to handle your personal information, we will agree with the partner on the purpose, duration, processing method, type of personal information, protection measures, and the rights and obligations of both parties, and supervise the partner's personal information processing activities. If we and the partner jointly determine the purpose and method of processing your personal information, we will agree with the

partner on their respective rights and obligations. This agreement does not affect your ability to exercise your rights against either party. If your personal information rights and interests are infringed and damage is caused, we will bear joint and several liability in accordance with the law.

Our partners include the following categories:

1.1 Partners who provide functional support for our products / services:

- (1) Third-party payment institutions that provide payment services;
- (2) Third-party companies providing delivery services;
- (3) Partners providing content distribution services (such as developers who have settled in this open platform and obtained your authorization);
- (4) Verification agencies that provide real-name authentication functions;
- (5) Partners providing goods;

1.2 Advertisers and Promotion Partners

To facilitate advertising and promotional effectiveness analysis, we may need to provide de-identified device information, group labels, advertising data, and related statistical information to advertisers (including advertisers and / or their authorized agents and advertising monitoring service providers) and partners with whom we have promotional agreements (collectively, "Partners"). This information is difficult or impossible to associate with your real identity. We will require Partners to strictly comply with our measures and requirements regarding personal information protection, including but not limited to processing in accordance with the data processing agreement, commitment letter, and this Privacy Policy, to avoid identifying individuals and ensure the security of personal information.

1.3 Third-party SDK partners:

To ensure the stable operation and functionality of this App and enable you to use and enjoy more services and features, this App integrates with third-party SDKs or other similar technical components. We will conduct strict security checks on the SDKs or application programming interfaces (APIs) used by our partners to obtain relevant information, and require them to handle personal information in strict accordance with this Privacy Policy and applicable laws and regulations. If the collection and use of relevant information requires your separate authorization, we will require your consent, unless the partner requires your separate authorization in accordance with its own privacy policy (users should carefully review the SDK's policies).

2. Transfer

We will not transfer your personal information to any company, organization, or individual without your express consent. If your personal information needs to be transferred due to a merger, acquisition, or bankruptcy liquidation, we will inform you of the name of the recipient and require the recipient to continue to be bound by this Privacy Policy. If the recipient changes the purpose or method of processing your personal

information as specified in this Privacy Policy, we will require the recipient to obtain your authorization and consent again.

3. Public Disclosure

We will not disclose personal information that you have not disclosed publicly or that has not been legally disclosed, except for disclosure required by laws and regulations or with your separate consent. If we need to disclose your personal information publicly, we will conduct a personal information protection impact assessment in advance and adopt security measures and methods that meet industry standards to protect the security of your personal information.

Service that requires a partner to process or we to transfer or publicly disclose your personal information is not described in this Privacy Policy, or exceeds the stated purpose and scope of direct or reasonable connection with the processing of your personal information, we and / or our partners will inform you again in accordance with the requirements of laws and regulations and obtain your consent.

4. Circumstances where consent is exempted according to law

We do not need your authorization or consent to process your personal information in the following circumstances:

- (1) Necessary for the conclusion and performance of the contract we sign with you;
- (2) Necessary for the performance of statutory duties or obligations, such as statutory duties or obligations directly related to national security, national defense security, criminal investigation, prosecution, trial and execution of judgments;
- (3) It is necessary to respond to public health emergencies or to protect the life, health and property safety of natural persons in emergency situations;
- (4) Processing personal information within a reasonable scope for news reporting, public opinion supervision, and other activities in the public interest;
- (5) Processing your personal information that you have disclosed on your own or that has been legally disclosed within a reasonable scope in accordance with the provisions of the Personal Information Protection Law of the People's Republic of China;
- (6) Other circumstances prescribed by laws and regulations.

VI. Information Storage and Protection

1. Information Storage

1.1 Storage Location

In accordance with laws and regulations, we will only store the personal information we collect about you within the territory of the People's Republic of China. If it is necessary to transfer your personal information across borders, we will separately inform you clearly (including the purpose of the transfer, the recipient, the method and scope of use, the content of the use, security measures, security risks, etc.) and obtain your authorization

and consent. We will ensure that the recipient has adequate personal information protection capabilities to protect your personal information.

1.2 Storage Period

retain your personal information for the shortest period necessary to provide you with the products / services you desire. For example, when you use our account registration / login function, we need to collect your mobile phone number. After you provide it and while you use this function, we need to continue to store your mobile phone number to provide you with this function and to ensure the security of your account and system.

In addition, we will retain your relevant information for the necessary period prescribed by relevant laws (for example, the "Electronic Commerce Law of the People's Republic of China" stipulates that the retention period for product and service information and transaction information shall be no less than three years from the date of completion of the transaction); or the period needs to be reasonably extended for financial, auditing, dispute resolution and other purposes.

1.3 After the above storage period

We will delete or anonymize your personal information, unless otherwise provided by laws and regulations.

2. Information Protection

2.1 Personal Information Security

The security of your personal information is of paramount importance to us. We will strictly abide by relevant laws and regulations and take reasonable and feasible measures recognized by the industry to protect your personal information and prevent it from being accessed, disclosed, used, modified, damaged, or lost without authorization.

2.2 Safety technical measures

We use industry-standard security measures to protect your personal information from unauthorized access, disclosure, use, modification, damage, or loss. We will take all reasonable and feasible measures to protect your personal information, such as using encryption technology (such as TLS).

2.3 Management system

We have established a dedicated information security department and developed a security management system, as well as a comprehensive security incident warning mechanism and emergency response plan. Security Tip : Although we have taken the above reasonable and effective measures and have complied with the standards required by relevant laws and regulations, please understand that due to technical limitations and the possibility of various malicious means, we cannot always guarantee 100% information security. However, we will take reasonable security measures that meet industry standards and do our utmost to protect the security of your personal information.

You acknowledge and understand that the systems and communication networks you use to access our services may be subject to security issues beyond our control. Therefore, we strongly recommend that you take proactive measures to protect the security of your personal information, including but not limited to using complex passwords, changing passwords regularly, and not disclosing your account password and related personal information to others.

If you leave this App and access browsing pages or other products / services provided by a third party , we have no ability or direct obligation to protect any personal information you submit to the third party, regardless of whether your login, browsing, or use of such products or services is based on a link or guidance from this App . However, we will remind you to be careful when entering third-party products or services so that you can better protect your personal information.

VII. Third-party suppliers and their services

To ensure a smooth experience, you may receive content from Tac Platform partners (hereinafter referred to as " third parties "). Tac Platform has no control over such third parties. You can choose whether to access the links, content, products, and services provided by third parties. Tac Platform cannot control the privacy and data protection policies of third parties, and such third parties are not bound by these Terms. Before submitting personal information to third parties, please refer to the privacy policies of these third parties.

1. Third-party SDK name: Bugly SDK

- Third-party SDK developer name: Shenzhen Tencent Computer Systems Co., Ltd.
- Third-party SDK developer official website: <https://bugly.qq.com/v2/>
- Function type: Provides you with App exception and crash reporting services
- Purpose of use: The Tac platform can obtain and analyze information about App abnormalities to solve user problems.
- Possible permissions: Full network permissions
- Permission authorization method: determined by the device system developer and the developer application, and enabled when the end user agrees to grant the developer application this permission
- Types of personal information processed: phone model, phone brand, Android system version, Android system API level, manufacturer system version, CPU architecture type, whether the device is rooted , disk space usage, SD card space usage, memory space usage, network type, name and PID of the currently running application process
- Third-party privacy policy link: <https://privacy.qq.com/document/preview/fc748b3d96224fdb825ea79e132c1a56>

2. Third-party SDK name: WeChat Open Platform SDK

- Third-party SDK developer name: Tencent Technology (Shenzhen) Co., Ltd.

- Third-party SDK developer official website: <https://open.weixin.qq.com/>
- Function type: Provide WeChat quick login function
- Purpose of use: To provide users with quick login services through WeChat accounts and simplify the registration and login process
- Possible permissions: network permissions, permission to read phone status
- Permission authorization method: determined by the device system developer and the developer application, and enabled when the end user agrees to grant the developer application this permission
- Types of personal information processed: device identification information (such as IMEI , Android ID), network information, unique identifier of the user's WeChat account, and user public information (such as nickname and profile picture).
- Third-party privacy policy link: https://weixin.qq.com/cgi-bin/readtemplate?lang=zh_CN&t=weixin_agreement&s=privacy

3. Third-party SDK name: Huanxin IM SDK

- Third-party SDK developer name: Beijing Yizhang Yunfeng Technology Co., Ltd.
- Third-party SDK developer official website: <https://www.easemob.com/>
- Function type: Provide instant messaging (IM) function
- Purpose of use: To provide users with real-time messaging, chat and message push services between users
- Possible permissions: network permission, storage read permission, recording permission (if voice messages are involved), location permission (if location-related functions are involved)
- Permission authorization method: determined by the device system developer and the developer application, and enabled when the end user agrees to grant the developer application this permission
- Types of personal information processed: device identification information (such as IMEI , Android ID), user account information, chat content, network status, message sending and receiving records
- Third-party privacy policy link: <https://www.easemob.com/protocol>

VIII. Protection of Minors

If you are a minor user under the age of 18 , you should read this Agreement under the supervision and guidance of your guardian before using the products or services of this App . You and your guardian will assume responsibility for using the products or services of this App in accordance with the law and this Agreement only after obtaining your guardian's consent. If you are the guardian of a minor user, please read this Agreement carefully and carefully choose whether to agree to it.

This App attaches great importance to the protection of minors. To ensure the healthy growth of minors, this App has developed a Youth Mode (which can be found in

[Settings]). In Youth Mode, we will recommend educational and knowledge-based content to minors and filter out content that is not suitable for teenagers. If a guardian wishes a minor under the age of 18 to use this App, please be sure to fill in the correct age and school when registering. This App only provides products or services to minors under the age of 18 in Youth Mode. We strongly recommend that minors under the age of 18 use Youth Mode under the guidance of their guardians. We restrict minors from using some functions (such as consumption and posting commercial information) and provide parental supervision and account management tools. No organization or individual may use this platform to induce minors to consume, conduct illegal transactions, or post inappropriate content.

IX. Restrictions on the Behavior of Institutions and Third Parties

Without the explicit permission of this platform, institutions and third parties may not obtain the contact information of parents or students through the platform in any way, nor engage in any form of commercial promotion, recruitment, or harassment. Furthermore, institutions or individuals may not publish advertisements, commercial posts, private messages, or transaction invitations without the platform's prior consent. Any losses incurred by users due to offline transactions with institutions or third parties or fraudulent activities are the sole responsibility of the user, and this app assumes no liability.

X. Disclaimer

1. Risks of User Behavior.

Users understand and agree that any risks arising from the use of this platform's services are the sole responsibility of the user, including but not limited to losses arising from the user's own fault, account information leakage, improper password management, improper operation, or sharing of accounts with others. This platform assumes no liability for any consequences arising from such behavior.

2. Third-Party Services and Content:

This Platform may contain links to third-party websites, applications, or services, or access content and services provided by third parties. This Platform is not responsible for any losses incurred by users due to the use of third-party services, participation in third-party activities, transactions, or disputes with third parties, and does not assume any responsibility.

3. Information Authenticity and Legality:

Users are solely responsible for any information (including but not limited to text, images, videos, comments, advertisements, etc.) posted on the Platform. The Platform does not guarantee the authenticity, accuracy, completeness, or legality of any content

posted by users or third parties. The Platform assumes no liability for any losses incurred by users due to reliance on such content.

4. Service Interruptions and Technical Failures:

This platform will strive to maintain service stability and continuity, but users understand and agree that this platform is not responsible for service interruptions, delays, data loss, or other inconveniences caused by system maintenance, server failures, network attacks, power outages, communication line interruptions, force majeure events, or other unforeseen, unavoidable, or uncontrollable reasons.

5. The Platform shall not be liable for any loss of user data, service delays, interruptions, or damage to user rights caused by force majeure and external events

such as earthquakes, typhoons, floods, fires, wars, strikes, epidemics, government regulations, policy adjustments, or other events beyond the reasonable control of the Platform.

6. Data and Information Security:

The Platform will implement reasonable security measures to protect user data. However, users understand and acknowledge that no method of transmission or storage over the internet can guarantee absolute security. The Platform assumes no responsibility for data leakage, tampering, or loss caused by hacker attacks, virus intrusions, system vulnerabilities, or other factors beyond the Platform's reasonable control.

7. Legal Compliance and User Responsibilities.

Users understand and agree that they must comply with relevant laws and regulations and the Platform Rules when using the Platform's services. Users are solely responsible for any disputes or losses arising from their violation of laws and regulations, infringement of the legitimate rights and interests of others, or violation of the Platform's Terms of Use. The Platform assumes no joint liability.
